Amenia Fire District

36 Mechanic Street

Amenia, NY 12501

To Whom It May Concern:

The officers of the Amenia Fire District have reviewed two potential hammerhead location changes presented to us by Silo Ridge.

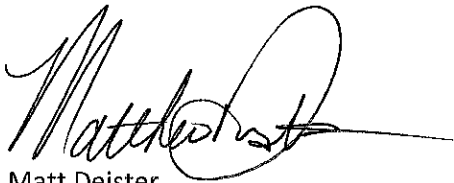

We are accepting the changes at the following locations:

- 1) The hammerhead between house numbers SL-1 and SL-2 could be moved back to the area between SL-4 and SL-5.
- 2) The hammerhead located in the driveway of house number SL-27 could be relocated across from house number SL-22 and SL-23.

We ask that these new areas still be constructed and maintained as such a hammerhead would be in the prior locations, Engineers will need to make sure the potential changes interact with the NYS Fire Code.

Please feel free to contact us with questions or concerns.

Sincerely,

A handwritten signature in black ink, appearing to read "Matt Deister", with a long horizontal flourish extending to the right.

Matt Deister

2<sup>nd</sup> Assistant Chief
